

CLEANSCREEN

Powered by CHEMFORWARD

Hello,

Thank you so much for attending the webinar “Optimizing Cleaning Products for Safety and Sustainability”. Please find below information and web links which will help you get started with the CleanScreen web application.

To screen formulations for IPC-1402 conformance and against safer criteria:

1. Fill out the [Contact form](#) to request free login credentials for the CleanScreen app
2. Access the [Login page for CleanScreen app](#)
3. Review documentation:
 - CleanScreen user guide in [English](#) and [Chinese](#)
 - Demo video for CleanScreen app in [English](#) and [Chinese](#)
4. Learn more about [ChemFORWARD](#)'s chemical optimization platform and alternatives finder.

To Find Certified Safer Cleaners:

- Go to [ChemWorks.org](#) (also available in Chinese) and navigate to the [Registry of Certified Cleaners](#)

To learn more about IPC-1402:

- Visit the [IPC Store](#) and [IPC Sustainability in Electronics](#) webpage

Please reach out to vishaal@chemforward.org if you have any questions. I look forward to assisting you in your safer chemistry journey with CleanScreen.

Best Regards,

Vishaal Gopal

Program Manager for Electronics Safer Chemistry Collaborative
